AUTHENTIC RECLAIMED FLOORING

Millions of footsteps on WOCA Oils

Carefully selected WOCA wood flooring products are now to be found in the new Tax-Free Shop in Copenhagen Airport (CPH) - not on the shelves, but on the newly installed wood floor due to a large renovation in 2013.

The fact that Copenhagen Airport uses WOCA wood flooring products is not breaking news though. WoodCare Denmark has had the privilege of supplying wood care products for all wood floors in the airport for decades. As a result of a professional care and maintenance system developed by Copenhagen Airport and WoodCare Denmark in close cooperation, it is hard to tell that specific parts of the wood floor area were installed for more than 40 years ago – despite a daily influence of approximately 50,000 visitors. This clearly shows that regular and correct cleaning and maintenance really can make a difference for a wood floor.

Products used in the airport:

Basic treatment: WOCA Master Oil

Maintenance: WOCA Maintenance Oil and WOCA Oil Refresher

Cleaning: WOCA Natural Soap

Products used in the Tax-Free Shop:

Basic treatment: WOCA Diamond Oil applied with indoor WOCA Oil Applicator
